Introduction

The **McHale PRO GLIDE B910** which you have purchased has been developed through years of constant research and development. Given proper care and attention the **PRO GLIDE B910** will give years of reliable and dependable performance. However it is important that the operators manual is read and fully understood to achieve this, **before** the machine is operated. As part of this philosophy it is vital to use only **genuine McHale** replacement parts, as these are manufactured to the same high standard as the original machine. These may be obtained through your **McHale** dealer.

If any part of this manual is not fully understood, please contact your **McHale** dealer who will be able to answer any questions or queries that you might have. It is important to quote the machine serial number when requiring spare parts or technical assistance. Space is provided below to record the machine details:

Serial number:	
Year of manufacture:	
Date of delivery:	

If you require further copies of this spare parts manual please
quote part number CLT01577

Note: Parts described as left and right are done so according to the direction that the machine normally travels in.

Note: Due to a policy of continuous product development and improvement *McHale Engineering* reserve the right to alter machine specifications without prior notice.

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor component. The main assembly consists of a long central shaft (1) with various components mounted along its length. Key parts include a large housing (6) at the top left, a motor or actuator (11) at the bottom left, and a base plate (38) at the bottom right. The assembly is supported by a frame (15) and includes various fasteners, pins, and seals (e.g., 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 39, 40). A small inset at the top right shows a cross-section of the assembly, and a large arrow at the bottom right indicates the direction of assembly.
